sociation gave a "Grand Supper enter-

always be used for children teething. It

remedy for diarrhoea. 25c. a bottle.

Entertaining Soldiers and Sailors.
The National Temperance Home was
last night the scene of a gay and merry
entertainment, music, and dancing.
It was the lot of this city often to witness.
It was given by the ladies of the Soldiers
and Sailors' Department, W. C. T. U., to
the soldiers and sailors of the city.
From the different military reservations or posts,
Mr. Whitney in a few well chosen words
spoke of the origin of the Home; what it
was, how it originated in the heart and
brain of the Superintendent of the Sol-
diers and Sailors' Department, W. C. T. U.,
C. E. spoke of the many of these men
who had picked up out of the gutter and
set on their feet, finding them
employment in a great many cases,
and starting them on the road to a better life.
The following participated in the exercises:
Miss Foster, Miss Eva Crawford, Miss
Maud Morgan, Professor Marco and wife,
Mrs. Bergman, Miss Marian Lamb and Mr.
McDonald, Professor Gross, Mrs. Lock-
wood. Refreshments were served at 10
o'clock. As our country's defenders left
the Home they were heard to make many
remarks characterizing the sense of en-
joyment. A great many of these men have
seen service on the frontier, some of them
have seen years of service in the Marine
Corps and navy, while a great many of
them are boys but just left home for
their life on the training ships of the navy, or
in the ranks of the army. The house was
crowded and everyone enjoyed himself to
the utmost.

Clothing at a Sacrifice.
A rare opportunity to buy first-class
clothing at small prices is given by the sale
of the stock at 912 F street, the creditors of
the house having decided to accept thirty
cents on the dollar for their bills. This
means that the stock will be sold at an
enormous sacrifice. A suit that cost \$10
wholesale will be sold for about \$3, and
other articles in the same ratio. The sale
will continue under order of the court
until the creditors are satisfied.

President Davidson has become tired
of managing the Louisville Club, and
has employed Mr. Buck McKinney to
take charge of the team. The new
manager has been deeper at the ball park
and at McCauley's Theatre for many years.

Sporting Editor Critic: Please inform
me through your paper if, in your
opinion, the Washington Club is trying
to break Louisville's record of one vic-
tory in twenty-four games played? One
game won out of ten played is simply
horrible. J. F. D.

The Pittsburg defeated the Wash-
ingtons yesterday in a loosely-played
game, scoring seven runs in the third
and fourth innings, a lead the visitors
could not overcome. Hanlon spoiled
the chances for a possible tie in the
ninth by a magnificent catch of Wil-
mot's long hit, with two men on bases.

Why She Wouldn't Stay.

Nowhere do they keep ahead of the age
as they do in Boston and vicinity. Says the
Tribune: The other day a lady in one of
our suburban towns called at the office of
the Young Women's Christian Association
in search of a girl to do general house-
work. This lady is quite famous among
her acquaintances for the order and taste
shown in her pretty residence, and for her
excellent treatment of servants. She found
a young person well recommended, one
letter coming from a prominent tradesman
at the South End. She agreed to pay the
young person a liberal salary, and they
went home together. Ten time came, and
the mistress intimated to the girl that she
might prepare the meal. But the girl
shrugged her shoulders negatively.
"Why not, please?"
"Because your house ain't lighted by 'lec-
tricity instead of gas!'"

ONLY a very few people
fully realize how delight-
fully pleasant a house
may be made by the use
of a few summer fixings, not
the least important of which
are light and airy draperies,
wire window screens, light
window shades, loose cov-
ers, canopies and mosquito
netting.

We are reaping the bene-
fit of our well-directed ef-
forts, for we have been un-
usually successful this season
with loose covers, screens
and shades, and the season
has hardly begun.

Loose covers. We began
by improving the linen. Im-
ported a finer quality and
one that has no wrong side,
thus making it cut to better
advantage.

Our Furniture Linens are
smooth-finished and can be
used over the finest and
most delicate fabrics with-
out fear of injury. No one
can furnish and make loose
covers for less than our
prices.

We have a man ready to send to your
house, measure your furniture (whether it be
one piece or fifty suites), and give you an
estimate of the cost. If you would rather
see your own covers we will cut them out
for you. If you would rather cut and make
your own covers we will sell you 3-inch
Furniture Linens at 25c. per yard, and 66-inch
for 50c. per yard.

WINDOW SHADES.—There is nothing more
valuable in the appointments of a room than
an ill-fitting and poorly-constructed
window shade. Our Window Shades are
made in our factory on the fifth floor. We
use the "Hartshorn Patent Shade Clasp,"
and the Hartshorn Patent Spring Roller,
which produce a better shade than any other,
and we guarantee them to run lightly, freely
and smoothly. We take measures and furnish
estimates free of charge, and if our prices are
not the least we do not expect to receive
your order.

We have no mill-made shades, as we man-
ufacture all we sell. Ready-made shades at
40c. each.

WINDOW SCREENS. We have sold hun-
dreds and hundreds of the 35c. Window
Screens without a word being received of
their buyers. The latest is a screen that
adjusts itself to the window by means of a
string at the top, which gives an unob-
structed view. We are hearing down the
streets of the "Hartshorn Patent Shade Clasp,"
which produce a better shade than any other,
and we guarantee them to run lightly, freely
and smoothly. We take measures and furnish
estimates free of charge, and if our prices are
not the least we do not expect to receive
your order.
